Number 1: Nerve fibre discharges and sensations

Introduction
H. O. Handwerker
Nerve fibre discharges and sensations 1

Å. B. Vallbo, R. S. Johansson
Properties of cutaneous mechanoreceptors in the human hand related to touch sensation 3

H. E. Torebjörk, W. Schady, J. Ochoa
Sensory correlates of somatic afferent fibre activation 15

F. Konietzny
Peripheral neural correlates of temperature sensations in man 21

B. Bromm, R.-D. Treede
Nerve fibre discharges, cerebral potentials and sensations induced by CO_2 laser stimulation 33

Z. Wiesenfeld-Hallin, R. G. Hallin
The influence of the sympathetic system on mechanoreception and nociception. A review 41

R. H. LaMotte
Can the sensitization of nociceptors account for hyperalgesia after skin injury? 47

H. Adriaensen, J. Gybels, H. O. Handwerker, J. Van Hees
Nociceptor discharges and sensations due to prolonged noxious mechanical stimulation – a paradox 53

Number 2: Visual development

Introduction
A. Fiorentini
Visual development 59

J. Atkinson
Human visual development over the first 6 months of life. A review and a hypothesis 61

L. J. Garey
Structural development of the visual system of man 75

R. Sireteanu, R. Kellerer, K.-P. Boergen
The development of peripheral visual acuity in human infants. A preliminary study 81

S. L. Sebris, V. Dobson, E. E. Hartmann
Assessment and prediction of visual acuity in 3- to 4-year-old children born prior to term 87

A. Fiorentini, M. Pirchio, G. Sandini
Development of retinal acuity in infants evaluated with pattern electroretinogram 93

V. Porciatti
Temporal and spatial properties of the pattern-reversal VEPs in infants below 2 months of age 97

L. M. Chalupa, R. W. Williams
Organization of the cat's lateral geniculate nucleus following interruption of prenatal binocular competition 103

J. P. Rauschecker
Neuronal mechanisms of developmental plasticity in the cat's system 109

A. J. Elberger
The minimum extent of corpus callosum connections required for normal visual development in the cat 115

Number 3: Regular contributions

B. Cohen
The roots of vestibular and oculomotor research. Introduction 121

B. Cohen
Erasmus Darwin's observations on rotation and vertigo 121

O.-J. Grüsser
J. E. Purkyně's contributions to the physiology of the visual, the vestibular and the oculomotor systems 129

V. Henn
E. Mach on the analysis of motion sensation 145

G. Westheimer
Helmholtz on eye movements 149

G. Taddeucci, A. Fiorentini, M. Pirchio, D. Spinelli
Pattern reversal evoked potentials in infantile spasms 153

J. Levy, N. Wagner
Handwriting posture, visuomotor integration, and lateralized reaction-time parameters 157

W. Berger, E. Altenmueller, V. Dietz
Normal and impaired development of children's gait 161

B. Saletu, J. Grünberger
The hypoxia model in human psychopharmacology: neurophysiological and psychometric studies with aniracetan i.v. 169

Number 4: Neuropsychology of face recognition (1)

Introduction

O.-J. Grüsser
Face recognition within the reach of neurobiology and beyond it 183

M. A. Jeeves
The historical roots and recurring issues of neurobiological studies of face perception 191

D. I. Perrett, P. A. J. Smith, D. D. Potter, A. J. Mistlin, A. S. Head, A. D. Milner, M. A. Jeeves
Neurones responsive to faces in the temporal cortex: studies of functional organization, sensitivity to identity and relation to perception 197

E. T. Rolls
Neurons in the cortex of the temporal lobe and in the amygdala of the monkey with responses selective for faces 209

Regular contributions

A. E. Michel, L. J. Garey
The development of dendritic spines in the human visual cortex 223

O. Robert, S. Miachon, N. Kopp, L. Denoroy, M. Tommasi, D. Rollet, J. F. Pujol
Immunohistochemical study of the catecholaminergic systems in the lower brain stem of the human infant 229

W. Lang, M. Lang, B. Heise, L. Deecke, H. H. Kornhuber
Brain potentials related to voluntary hand tracking, motivation and attention 235

P. Odenrick, P. Sandstedt
Development of postural sway in the normal child 241

J. Ilmberger
Dissociation of visual and auditory order thresholds after cerebral injury in man 245
